

Declaration of Consent

General consent

I consent to the processing and use of my health data for medical research exclusively as described in point 1 of the user information and with separate storage of the name and other directly identifying data (coding).

I also consent to the scientific analysis and use of my coded health data by third parties, e.g. by universities, research institutes or researching companies on the premises of the Smart4Health Research Platform.

I confirm that I have no commercial interest in providing data to research and that I have no rights in the results of the research.

☐ Yes☐ No

Possibility to transmission of my anonymized health data to third parties

I optionally consent to the transmission of my **anonymized health data to third parties** abroad (e.g. universities, research institutes or researching companies), **if the European data protection law applies or the European Commission has confirmed an adequate level of data protection**. This may include a transmission to external research data infrastructures that conduct industrial research. For details, see point 1.5 of the user information.

☐ Yes☐ No

Possibility of automatic provision of future data

I agree that health data from selected categories is automatically processed to be provided to research when it is newly uploaded to my Smart4Health account. This always applies to patient summaries, and medication plans. Apart from that, I can manage in my user preferences which optional health data is uploaded automatically. For details, see point 1.3 of the user information.

☐ Yes☐ No

Possibility of re-contacting

I agree that I may be re-contacted by Smart4Health (see point 2 of the user information) in order to

A. provide, where appropriate, additional information relevant to scientific questions.

☐ Yes

☐ No

B. be informed about new research projects/studies and scientific results, which are related to my provided data.

☐ Yes

☐ No

Validity of my consent

My consent to provide my health data *from the Smart4Health platform* to the Smart4Health Research Platform is valid during the *Smart4Health* project, which will end on February 28, 2023. After the project ends, I can give my consent again. I can also choose to withdraw or not give my consent again. The use of the data collected prior to the project end remains permissible beyond this period (point 3 of user information).

Right of withdrawal

I voluntarily consent to provide my data for research. I may withdraw my consent in whole or in part *in the Smart4Health Research Application* or at HPI at any time, without giving reasons and without any consequences to me.

Upon withdrawal, the data stored on the basis of this consent will not be used for future research. It will be anonymised, insofar as this is permitted by law, or deleted. Data from already performed analyses cannot be removed (point 4 of the user information).

I have been informed about the use of my health data and the associated risks and gave my consent within the scope of what is written in this document. I have had enough time to consider the information and ask questions which have been answered to my satisfaction. I have been informed that I would receive a copy of the user information and a copy of the signed consent statement. By signing this form, I am consenting to provide my health data to the Smart4Health research platform.
